

Minimum Wage Schedules To Aid Incomes

Continued from Page One

that this industry must compete with similar industries in Saskatchewan and Manitoba where no minimum wage schedule is in effect.

MINIMUM WAGE SCHEDULE

It is pointed out that about 80 per cent of Alberta lumber is exported to the United States and that a trade and industry department has taken steps to secure co-operation of Boards of Industrial Relations in Saskatchewan and Manitoba in establishing uniform wage rates for the three provinces according to the above-mentioned workers.

Inasmuch as the schedule to be drafted by the local Board of Industrial Relations will give workers in this branch of industry in Alberta a substantial increase in the rates that they have been receiving, Manitoba and Saskatchewan, it is pointed out, will also gain the advantage of a better wage rate.

The idea behind this is to give a higher wage rate to the workers and still preserve their right to work, and the minister.

BUILT TWO WAYS

The rate schedule is built two ways, one for persons employed for more than a week, and one for persons employed for less than a week.

Persons employed for more than a week receive a minimum of 35 cents an hour which is increased to 40 cents a week and 45 cents a month.

Persons employed for less than a week receive a minimum of 40 cents an hour which is increased to 45 cents a week and 50 cents a month.

PAY THEN RATES

For the second six months they will receive 30 cents an hour and will be raised to 35 cents an hour for the next six months.

For the workers hired for less than a week, the rate of 40 cents and the employer must be paid for at least one week.

WORKERS WILL RECEIVE 30 CENTS AN HOUR

For the first six months these workers will get 30 cents an hour.

For the second six months they will receive 30 cents an hour and will be raised to 35 cents an hour for the next six months.

For the workers hired for less than a week, the rate of 40 cents and the employer must be paid for at least one week.

HERE IS THE FULL TEXT TO THE MINIMUM WAGE ORDER

Pursuant to the provisions of The Minimum Wage Act, Chapter 76 of the Statutes of Alberta, 1937, the Board of Industrial Relations, after the holding of public inquiry as the Board considers adequate, do hereby order as follows:

1.—This Order shall apply to all employees in any industry, business, trade or occupation, and to their employers, to which the provisions of The Minimum Wage Act extend, save to the following classes of employees:

BOARDS OF INDUSTRIAL RELATIONS

(a) employees engaged in any industry, business, trade or occupation, for work in such industry, business, trade or occupation;

WILKINS AT TORONTO FROM POLE SEARCH

Explorer Believes Russian Airmen Will Be Found—Food Plentiful

TORONTO, Sept. 25.—Sir Robert Wilkins and his party return to the Arctic to search for the Russian plane, missing since their transpolar flight, they will search the same area they covered during the past month, they agreed last night after they landed in Toronto from their trip to the Arctic.

But then 800 Toronto citizens were amazed at the skill of Pilot Herbert Mullock-Keseyan as he brought the silver ship down in the darkness and settled on Toronto Bay without benefit of lights or those from houses on Toronto Island as the reflection of city lights. But to Sir Robert and others of the party it was simple experience after 12,000 miles of Arctic cruising.

MAY BE FOUND
Sir Robert declared to say what recommendations he would make to the Soviet authorities in New York Saturday regarding continuance of the search for Pilot Sigismund Levanevsky and his five companions, missing since Aug. 12.

"Their plane could easily have disappeared, but if it had been the injured, there is a very good possibility of finding them," he said. "Their ship could have been crushed by the ice or sunk, but if they were not hurt they could survive the winter."

HEALTHY MEN
They are intelligent men, healthy, and they know how to take care of themselves. They have rifles and ammunition, and would probably have started north, they could easily get food, animal skins, bears and foxes, and possibly seal, though seals are difficult to get if you are without dogs. If they start walking north, they probably would not come out for months."

Sir Robert said he wanted to make clear that others searching for the missing Soviet fliers might find them in the same area, and his party had secured without success.

"They may be on ice floes drifting 20 miles a day, or they may be washed overboard. When we passed over a certain area, the ice might have been 15 miles away, drifting, near to words the path we had taken."

FLOATING ICE
"There are no large sheets of ice but floating ice in an open sea, the fliers could be seen. The fliers were wearing life jackets, like we were wearing," he added.

Sir Robert said that the fliers had observed much of the "land" the searching party passed over.

"More than 50 per cent of our flight was during fog and snow clouds," he said.

Sir Robert added the stranded Soviet fliers might have seen the plane through the haze because of the sky.

5-Pound Spud Grown In City Sets New Record

Biggest potato seen in this city for some time was brought to The Bulletin's editorial office yesterday. It had five tributary tubers attached to its body, besides two extra knobs.

"That you ain't seen nothing yet!" chants William Jones of 404 40 avenue, as he proudly pulled the wrapper from an immense potato weighing five pounds. The freak spud, an Early Ohio, has a body of about eight inches in length with seven tributary tubers growing from it. "I think it will even beat that one you had yesterday," Mr. Jones commented.

And so another record in the vegetable world is made.

Water Heater Fumes 'Asphyxiates' Woman

TORONTO, Sept. 25.—Two women were asphyxiated here last night by fumes from a hot water heater. They were Mrs. Mary Carnegie, 25, and Mrs. Margaret Longbeach, 38. The women were preparing for baths at the Carnegie residence when overcome by the fumes from the gas hot water heater.

Beauty Joins Economy In Crochet

Household Arts by Alice Brooks

Stitching is a most delicious way to do and quickly joined

Luxury is yours (without a heavy tax) when beauty joins economy in crochet. Fasten, indeed, is the best that wears this lovely, crocheted "piece-meal" of simple six-sided medallions (they measure 10 1/2 inches). You can do one and all with crochet hook and some string, joining them together in the manner shown. Here is the true Medallion—whether spread, cloth, scarf or whatever you choose to assemble from this daily life.

In pattern 5875 you will find complete instructions for making the medallion shown, an illustration of it, and all stitches used; a photograph of the medallion; 38 requirements.

Apple Day Aids Kiwanis Home

THE KIWANIS CHILDREN'S HOME

on 101 Ave. and 120 St., where many hundreds of underprivileged children have been assisted since its inception a number of years ago.

A year has gone since the Kiwanis Club last appealed to the citizens of Edmonton and surrounding district to make "Apple Day" a success, and last year it was a great success. Apple Day is synonymous with Kiwanis Child Welfare Work. "An apple a day keeps the doctor away" is an old saying. The Kiwanis Club has added to this by saying, "Buy an apple or a box of apples and keep many children healthy, happy and hopeful."

The work of the Kiwanis Children's Aid Society of Edmonton is continuous, and many children and parents have received that assistance that is so necessary when fortune for a while has ceased to smile.

With an average of fifty-six children in the Home during the year, the responsibility of the Kiwanis Children's Aid Society is a heavy one.

Two Little Girls Killed In Crash

QUEBEC, Sept. 25.—Death of two children in a Wednesday highway accident at Villeneuve, about 25 miles from here, was disclosed today in court as three motor vehicle drivers were arraigned on criminal negligence charges.

Ten-year-old Lucille Labonte and her sister, Marie, eight, were killed in a three-way collision between trucks driven by Frederick Labarre, of St. Jean des Chateaux, and Philippe Tanguant, of Lotbiniere, and an automobile with Gerard Bati, of Warwick, at the wheel.

Spanish Writers Sentenced To Die

VALENCIA, Sept. 25.—Four Spanish newspaper writers, who had volunteered fighting on the Madrid front for the insurgent newspaper, were captured by the government last night. They were sentenced to death by a people's court last night, for "treason against the government."

Alberta Baptist Ordained In East

NORTH BAY, Ont. Sept. 25.—Rev. A. J. Maclean of Truro, Alberta, was ordained here last night at the closing session of a three-day conference of the Northern Association of Baptist Churches. Dr. H. L. MacNeill of McMaster University delivered the address.

ANNUAL MEET OF TEACHERS HERE OCT. 7-8

Edmonton East and West Rural Inspectors to Hold Rally

The annual convention of teachers of the Edmonton East and Edmonton West rural inspectorates will be held in the Masonic Hall Thursday and Friday, October 7-8, a officials of the association announced Saturday.

Following the president's address by J. M. Bell, of Pinhurst School,

Children come and go, but during their stay in the Home, their physical condition is checked over, and anything requiring attention is done. Teeth, eyes, ears, are all examined, and our thanks to the our medical friends, who give of their time and service in this work. In addition to physical comfort, the spiritual side of welfare work is not neglected, and the training of the children in clean thinking and clean living is our daily care. No child leaves the Home without a proper supply of clothing and this part of our work is not light.

The demands on the Kiwanis Children's Aid Society are heavy, and the assistance of all our good friends is necessary to us to carry on and to bring into the lives of the children entrusted to our care, a sense of comfort, home environment, security and general well-being.

LONE SKIPPER ENDS 10,000 MILE VOYAGE

VANCOUVER, Sept. 25.—Captain W. A. Crowell, sailed his 25-foot ketch "Queen Mary" through the Lions gate yesterday, and ended his 10,000-mile voyage from Halifax to Vancouver, begun July 16 last year.

The 60-year-old Nova Scotia fisherman said his plans for the future were indefinite.

"I'm going to see your mayor to deliver a letter I got from the mayor of Halifax," Captain Crowell said. "After that I don't know."

He did not say whether he would return to Vancouver, or return to Halifax immediately.

While he talked, "Queen" his black painted and sole companion on the future voyage.

Typhoid Cases Traced To Milk

MOOSE JAW, Sask. Sept. 25.—Twenty-three cases of typhoid fever reported in Moose Jaw have been traced to one milk route, the lone case which has been traced to Dr. H. M. Bayly, medical officer of health, said today. No case of the disease were attributed to the water supply.

Apprentice Army Returns To Shops

MANCHESTER, Sept. 25.—After a strike lasting nearly two weeks, 11,900 machinist apprentices today received the written promise of their employers that they will be granted a wage increase of three shillings a week, 10 cents per week. They will return to work Monday.

14-month voyage by way of the Panama Canal, sat quietly on the covered deck of the little boat.

CHOLERA PLAGUE STRIKES CHINESE NEAR SHANGHAI

By JAMES A. MILLER
Associated Press Foreign Staff
SHANGHAI, Sept. 25.—The cholera epidemic was reported today to have struck the 250 Chinese laborers at the Chinese defense line north of the city.
Some 200 Japanese soldiers were sent to have died of the dread disease in the Paochow area, 20 miles north of Shanghai. An additional 300 have been definitely established to have the disease.
Chinese military authorities reported that three days of fighting at Lohien, a few miles toward Shanghai from Paochow, had wiped out five of the six battalions in the Japanese Takahashi detachment.

MORE ABOUT DOUBLE WEDDING

Continued from Page Eight

Residence, Irene is very much in love with him.
"Mrs. Bly married. 'Very much in love with him. You put that last it ought to be first. What was Irene know about love?'"
Margie felt that Mrs. Bly was using a bit more undignified than usual. "Irene's twenty-one," she said quietly.
"Sure! And I'm fifty-nine, and I've had three husbands, and I don't know very much about love yet, or probably I've got more than hanging around still. What do you know about love?"
Again Margie hesitated. For a flickering second she wondered what she did know about love. But her basic principles came to her. "I think Irene and Walter are perfectly suited to each other," she said. "Mrs. Bly, she's plucked at the delinquent other feather. 'I'm afraid I do too. She stood up. 'I've got to scream.' The person who was under duress at that moment was leaving the stove of a silver-smith on Richmond Avenue. She had not found the tall candlesticks. She had been seriously injured in a fall, and she was quite dizzy. But fear of Margie's disapproval had instinctively inhibited her. She pulled her silver fork for more closely around her neck, and started to ward the next block where Paul had parked the limousine. She was in a hostile state of mind. Hundreds of people were aware of her. Her face was bright, and she had changed to green—but she did not know. To two months ago, she had been a married woman. Married to Walter. Walter was a sweet, kind, and had been a long, impatient wait. Maybe she could find the right candlesticks at last.
A voice said, "Here."
It was a powerful masculine voice—deep—and so compelling that Irene unconsciously turned to see its possessor. To her astonishment, the man seemed to be speaking to her. He pointed a pencil at her. "I mean you, Goldilocks."
She gasped. "Me?"
He had been sitting on a bench in front of an exact. He wore a black and buckskin show and a flannel shirt, and no tie. His

HEALTH PLAN WORKING WELL IN ONTARIO

TORONTO, Sept. 25.—Associated Medical Services Incorporated, voluntary non-profit health service scheme, operating since August 1, has now reported 224 subscribers on its list. The scheme is open to any Ontario resident who is in good health, was granted leave by the government to institute the scheme.
Subscribers receive complete medical services, surgical operations, hospitalization and other services, for a fee of \$2 a month and less.
Dr. Hanna, the department's chief medical officer, today said 415 physicians in Toronto applied to serve patients through the scheme. A substantial increase in membership was shown each month.
To join a patient who is a physician if he would agree to serve him through the scheme. Then both physician and patient agree to use the service.

Major and Minor Notes

By John Oliver.

Egon Grapentin, highly promising city violinist, is appearing in recital at the Masonic Temple on Friday, October 2, under the patronage of the Women's Musical Society. Egon is a native of Berlin, Germany, already has won considerable distinction in the realm of music. Son of Mr. and Mrs. Fred Grapentin, he came to this city at four years of age. He recently returned from studying at Philadelphia, where his teacher was Joseph Simkin, who famous teacher that he had studied with Carl Flesch and Franz Kneisel.
In the 1935 open violin competition at the Alberta Musical Festival, this young artist won first place. It is worthy of note, that in the first round, he defeated Nicol, of this city, had won the same competition in 1937.
Arthur Benjamin, famous English pianist and composer, who adjudicated on the open violin competition here in 1935, said: "A real concerto player, having a fine sense of rhythm. Fine bowing and is full of temper."
The Trinity Girls' Group of young violinists, have resumed their practice in the school room of Holy Trinity church, the first Tuesday of each month, at 8 p.m., under direction of Mrs. Leonard Dawson, L.R.M. Inter-est among music is to be studied this season. There are still some

vacancies for girls of high school age and over, and those interested should communicate with the secretary, Doris Tingle at phone 2675.

Friends of Doris Heckelman, promising young violinist, who won unanimous praise from Dr. Thomas Wood when he adjudicated here recently for the Associated Board of the Royal Schools of Music, are congratulating the young lady on winning the gold medal for her final examinations—those for which she has won real praise from Dr. Wood. As was said in these pages a few weeks ago, her playing is all that the distinguished examiner said it was.
It is good news to hear that the Edmonton branch of the Alberta Musical Festival Association is already planning for the annual festival to be held here next year. Under the presidency of Howard Sturtevant, the association can count on an active year. The long association of Mr. Sturtevant with music in this city—he was one of the founders of the festival—combined with the splendid officials assisting him, insure a first class, highly efficient organization.
The syllabus for the competition will be issued soon when all interested will discover exactly what they are up against in the matter of test pieces.

ADVISE ABOUT SHOWING

One fact which I noted with approval at a recent dog show was the large number of dogs which might be classified as local. Many of them were of the type which, for the first time, or had possibly exhibited as seldom as to war. Among them were some of the best I have seen in the show. I have been active in the game. I have run the gamut of success and failure. I have had the thrill of winning best in show. I have been best in group, and likewise I have counted upon to do great things, go down to what seemed to me an unattainable defeat. I have a dog of my breeding selected for illustration in an outstanding book of reference as the most typical specimen of its kind at the time. I had the thrill of finding a dog breed absolutely in the rough, bringing it over here, conditioning and training it, and winning best in breed, best in show twice at the specialty show of its breed, and then having it selected to be mounted at its death for permanent exhibition in the canine hall of fame, the Peabody Museum of Yale University.

KNOW YOUR HORRORS

I have seen dogs of my breeding or bloodlines give account of themselves in the show ring, as winners and as losers. I have seen them in many far-off places in this country and abroad. I have seen dogs of mine become champions, and in my capacity as judge, have started many belonging to others on their way to that coveted title. I mention these things boastfully, but merely to indicate that I know the joys and sorrows of the dog game.

I realize that my successes and failures in breeding and exhibiting dogs mean nothing to the betterment of life in general. Of what particular good is it that a small way I perhaps have helped to improve the breed that has for so long held my individual fancy? During all the years that I was getting amusement from breeding and showing dogs, I have never got into the game, remain a while, and quit. I saw others become embittered and cynical by reason of what they considered, and often were, injustices.

All this leads up to what I would

Looking Them Over

By Jack Kelly
Football Opener
College Itch
Bygone Greats

FOOTBALL makes its delayed debut here today at the Varsity grid when Coach Bill Broadfoot's Golden Bears try their claws on Coach Joe Dwyer's E.A.C. Huskies. Coach Joe's splendidly assures me that his gang is absolutely immune to bear claws and that their favorite diet is juicy hunks of bear meat. In fact Joe is inclined to the opinion that his Alutika Clubbers may chase the Golden Bears right up their own game paws.

Bill Broadfoot, however, hastens to explain that this man Dwyer cannot be relied upon in gridiron matters. "Huh," snorts Bill, "imagine dubiously chasing us up our grid posts on our grid! I have no hesitation in saying the suggestion is preposterous." Bill also had no hesitation in saying one or two other things, but we have plenty of hesitation about printing them.

Varsity is playing its first game of the season on a short but intensive training period. The Edmonton Athletic Club have one game under their belts and a long period of hard training. Against this extra drill, the Golden Bears will have to rely on that lightning spirit that only college teams can conjure up in the wildest heat.

The fact that neither of today's principals are in the same class as Calgary, Regina or Winnipeg does not mean that there will not be plenty of half-raising action. Personally I expect to get a much bigger kick over at the Varsity grid than I would get out of watching the Bombers or Bruins. I like my football open spots of forward passes, broken field runs that bring you up yelling, and plays around the ends. You can have your unobtainable line and plays that you can't see either side or finish.

The E.A.C. has specialized on forward passes. In their first game against Calgary Bruins, they had them gringy for awhile with a brilliant aerial attack. Varsity likewise has developed quite an offensive line, so that taken all round there is likely to be a right thrilling afternoon of the stuff that makes cheer leaders turn back flags and exhort the faithful stews to greater vocal efforts.

It's Rolly Day For the Oldtimers

OTHERS another appeal through to football at Varsity that will draw a hundred down to the grid. It's an unofficial day of reunion for the grads of bygone classes and teams. There will be much slapping of backs and recalling of "hones" that were hung in the olden days. Although none of them will admit it, all of these old timers still get a kick out of dropping back for a few hours into varsity life. They undoubtedly will find the greatest race of Golden Bears far behind some of the great teams of the past—days always have a feeling that the place has got sort of gone to the dogs since they left.

Three oldtimers will be telling each other of the feats of "Big Kid" Langford who used to gallop the length of the field with few or no blockers dangling from his heels like streamers in the wind. Of dynamic Jack McAllister who rates as one of the Green and Gold's best quarter backs of all time. There will be a time of adieu as they recall how big Hercie Breen used to be in slugging through the thickest sort of line. He didn't want any hype made for him—he liked making them himself.

The kickoff is timed for 3:30 p.m. with Magistrate Gibson appointing the official tee. His Workshop knows plenty about putting a toe on a punter. He played Queen's from 1904 to 1906 and during his last year he was chosen for the All-Canadian team.

The student body was brought to fever pitch last night with a monster pep rally in Convocation Hall. Upwards of 800 students were in attendance to run through cheers and songs. Dean E. A. Hovey and Prof. A. W. Matthews spoke on athletics in student life.

JOHNNY LONGDEN High School Boots Home Three Highlights

By JIMMY DEAN

Hallo-felloes:

The old dog bunker is rather sickly depleted today. However, several interesting remarks, conjectures or possibilities are circulating for the moment. While walking down the hallowed staircase of my Alma Mater, I was met by one of our junior rugby players accosted me.

"Say, Doc," quoth one, "what kind of a team has this year's team?"

"Oh, nothing, he comes most of all time of year," I replied.

"Old man of mine, the question is two-fold. If you mean, do I think the team is a better team than we have, the answer is to that I give you a thumbs up."

"Quick Devil, a son of a Diavolo and winner of only one of his 10 annual paces, gave evidence of developing into a router as he ran the mile in 1:38.55 under 116 pounds. After following the pace set by William DuPont Jr.'s Bonnie Sea, Longden shot Quick Devil in the front by three lengths. Bonnie Sea was another five in front of E. R. Braden's Burdine.

GRIM REGINA SQUAD SEEKS FIRST BLOOD

Must Win Today Or Title Hopes Are Shot

WINNIPEG, Sept. 25.—A squad of 24 Regina Roughriders players arrived in Winnipeg this morning, grimly determined to chase the rock that has kept them on the losing side in the three league games they've played this fall.

Roughriders carried the same team that went to Calgary with the exception of Freddy Ray, who is replacing Laundry Man in today's game.

"I've given Ritchie orders to jump any man who falls down on the job at any time in the game," said Ritchie. "That includes me, too."

Without a single victory in their credit yet, Regina must win today or face practical elimination from the western title picture.

On the train last night, Griffing and Roughriders spent two hours drilling players into the Regina game last Saturday. They believe they have the best team in the league, despite what Ritchie calls the "perfectly executed" Winnipeg plays.

POLICE CHECK-UP OF AUTOMOBILE DEFECTS CONTINUES

Traffic Head Gives List of Rules for Safety in Driving

Investigation Finds Motorists With Bad Brakes Not Responding

Police check-up on drivers who insist on breaking speed limits, and who neglect to see that their automobiles are kept in first-class mechanical condition is continuing, it was announced by Sergeant Major Alex Kiddie of the city police, Friday.

More than 5,000 brake stickers have been distributed from police headquarters here and it is estimated that about 450 automobiles are carrying stickers to show that their brakes have been checked and put in first class shape.

Checkups with service stations revealed a strange state of affairs, the sergeant-major said. One company said they had tested 42 cars, 35 of which needed attention. Another reported that of 130 cars tested only ten needed attention. An official of the latter company reported that it was only those who knew their brakes were in good order who were coming in for checkups and stickers.

FREQUENT TESTS

"Upon the efficiency of your brakes and steering primarily depends, in emergency, not only your own safety, but that of all other users of the roads. Brakes and steering should be tested frequently, at intervals. If brakes are found inefficient they should be adjusted at once with suitable material capable maintenance, stated the sergeant-major.

"We had a case in police court here recently," he said. "A young fellow, about to be married, overtook a friend's car. He drove in the faster lane, his brakes were playing possum, and he was off for the morgue. The car was a small pit bull, and he was on the street in front of the car. The driver put his foot on the brake pedal, but the brakes were faulty; they failed to hold and the car struck the car and injured the driver. The young man was taken to the hospital, and the car was towed away. He lost \$100, and the car was destroyed."

"Although delayed by the accident, the young man was able to get away from the hospital. He was a result of his own carelessness. He left his job, all savings, and he had no one to help him. He had no adequate brakes."

RULES FOR SAFETY

In reply to a request for a few simple rules which may be of help to motorists as a guide to safer driving, Sergeant-Major Kiddie said:

1. Remember, the faster you are traveling the greater is the amount of safety which is required.
2. Always be sure you are in control of your car within the distance for which you can see the road ahead. At times drivers are so close to the limits of their vision that they are unable to see dangers ahead.
3. Remember that you must be certain of the movement of all vehicles before you make any move. Do not rely on the driver of the car in front of you. Do not rely on the driver of the car in front of you. Do not rely on the driver of the car in front of you.
4. Give plenty of room to pedestrians and cyclists.
5. Always keep yourself in control of your car in safe driving. Do not drive when you are tired, and remember that a tired driver makes a very dangerous mixture. Insure your car frequently and keep brakes strong and lights in good condition.

Speeding Brings Death to Four

Said to have been travelling 65 miles per hour around a curve, four Toronto young men crashed into a steel street car travelling in the opposite direction. The four men were instantly killed in the terrific crash. The car was reduced to a shambles, as shown above. The four men were: Horace Hoshin, 24, driver; George Radmore, 27; James Forbes, 27; Desmond Robinson, 26.

Certificate of Safety

This is reproduction of the official Safety Sticker which has been issued by the Edmonton Police Department for use in the present Safety Campaign.

New Books In Public Library

New books added to Edmonton public library shelves during the past week include those of the following authors:

Auten, W. H. and MacNicol, L. "Letters from Iceland"; Bailey, Alice A. "From Intellect to Intuition"; Bernstein, H. "Truth About The Protocols of Zion"; Dixon, Scott, J. "England Under Trust";

Chatterton, E. R. "Charming on the Riviera"; Gidman, E. and Dawson, D. "More House for Your Money"; Graves, E. R. "American Woman"; Harland, Irene. "His Struggle (An Answer to Hitler)"; Hare, W. L. "Systems of Meditation in Religion"; Haxell, A. W. "Everyday Science"; James, C. L. R. "World Revolution, 1917-1929"; Mallard, E. K. "Forbidden Journey from Peking to Kashmir"; Morgan, G. C. "Great Physician"; Vukobratovic, K. "Hungarian Dances"; Wallace, Claude. "From Jungle to Julliard";

U.S. Church Will Alter Divorce Law

DETROIT, Sept. 25.—(AP) Herman Page of Detroit, chairman of the Episcopal church's joint commission on marriage and divorce, revealed today it will advocate authorization for bishops to permit second or subsequent marriages after divorce for any cause. The church now approves second marriages only for the "innocent party in a divorce for adultery."

MOTOR FINES PAID BY NEW ORGANIZATION

Motorists' Protective Board Work for Safer Motoring

A branch of an international motorists' association with head office for Canada in Edmonton has been in operation here for the past six months and is 100 per cent behind the present safety campaign.

Officials of the board stated that it was complaint of this kind that made for safer driving. While brakes and other mechanical parts of a car should always be in good condition, drivers such as the present one should be made two or three times a year to bring before the public the necessity of having their car in proper order and the police should never hesitate in checking a car when there is doubt as to its mechanical worthiness.

The Motorists' Protective Board now has offices in most of the principal cities of Canada and the United States, and all members are entitled to the protective privileges in any city where the organization is represented.

The board was first formed with the idea of promoting safety in motoring and also to relieve car owners who were charged with infractions of city motor-by-laws of the need to spend valuable time and embarrassment of appearing in court. To these services have been added the payment of fines as no further cost to the member, the obtaining of license plates at cost, and the supplying of driving instructions.

The local branch now numbers thousands of Edmonton motorists among its members and has rendered valuable service not only to its members, but to the motoring public at large, with its aggressive campaigns for closed parking areas for various classes of trucks and other motor units.

Ever alert to the promotion of "good motoring," the Motorists' Protective Board carries on continuing a safety campaign of its own with the slogan of "Let Them Live," which is worthy of full support from all Edmontonians.

No Test as Bingo Players Head Guilt

MONTREAL, Sept. 25.—Operations of a game testing the legality of bingo playing were quashed yesterday when 20 persons arrested around a bingo table Saturday night pleaded guilty to charges of keeping and being found in a common gaming house. Charges were laid against the players, who were fined \$5 and costs, with the exception of two who drew jail terms, were fined \$2 each.

Canadian Mint To Make For Others

OTTAWA, Sept. 25.—A proclamation was published last night in the Canada Gazette making effective regulations under which the minister of finance may enter into an agreement to make coins at the royal Canadian mint for any other British dominion or colony or for a foreign state.

New Grade Crossing Short Stop

The "autostop" illustrated in the accompanying photograph, is a new safety device that has been installed by the Long Island Railroad at the road's New York road crossing in New York state. The device is built into the road paving. At the approach of a train, it rises at a barrier across the road, and after the train has passed the crossing, it recedes back into the pavement. The autostop barrier at this point is divided into two sections. The approach side of the contrivance runs up to four inches, when the approaching train comes to the first block, 2,000 feet from the crossing. When the train reaches the second block, 1,000 feet from the crossing, the barrier rises to 9 1/2 inches, and locks into position. The opposite—or exit side—rises to a height of seven inches, but does not lock, so that cars which have passed over the crossing are not locked in. Flashing lights and reflectors are built into the face of the barrier for night lighting.

four inches, when the approaching train comes to the first block, 2,000 feet from the crossing. When the train reaches the second block, 1,000 feet from the crossing, the barrier rises to 9 1/2 inches, and locks into position. The opposite—or exit side—rises to a height of seven inches, but does not lock, so that cars which have passed over the crossing are not locked in. Flashing lights and reflectors are built into the face of the barrier for night lighting.

Strike Looms As Wheat Gets Going

MONTREAL, Sept. 25.—On the eve of the movement of Western Canada's new wheat crop from the lakehead to Montreal, leaders of the Canadian Seamen's Union today sounded the threat of a strike which they promised would affect "every steamship registered in Canada."

Heads of local areas eastern Canada were notified by Pat Sullivan, general organizer, to prepare for a general strike. If demands made by steamship companies are not answered favorably by midnight Tuesday.

Maude Adams To Teach Stage Art

COLUMBIA, Mo., Sept. 25.—Maude Adams brushed aside the years from 64 back to girlfriend love. A love for the stage which she could not down prompted the actress who immortalized "Peter Pan" to give up the privacy she has prized since retirement in 1918 and begin a new career, among adult students, college girls. She will teach them the arts of the drama with which Maude Adams has thrilled thousands.

For Dry Area

BRANDON, Man., Sept. 25.—Brandon residents today were loading the fourth car of vegetables to be shipped to needy people in the Saskatchewan drought area. Three carloads have been shipped recently.

MYSTERY NOTE TELLS OF MAN'S INFATUATION

Special to the Bulletin
DUMFRIES, Sept. 25.—A story of an infatuated man, hopelessly in love with his neighbor's daughter, who led to the murder of Mrs. Andy Zambro, of Rosedale, by Ignatz Kozak, who then committed suicide, was revealed Thursday in the discovery of a two-page typewritten journal, apparently Kozak's own story which he had told to some confidant.

The journal, written in English, tells of Kozak's hopeless love for Mrs. Zambro, who the woman initially flirted with him and fooled him at times. How Kozak longed to take her away from her husband only to be spurned when he made advances of this nature.

While the journal substantiated the theory formulated by police, no one has yet been found who will admit to having written down the

Rouell Talks With Premier Aberhart

General discussion of the sittings of the Royal Commission on Dominion-Provincial relations in this province formed the basis of a discussion on Friday morning between Mr. Justice N. W. Rouell of the Ontario supreme court and Premier William Aberhart and members of his cabinet.

No date was set for the sitting of the commission in this province.

Ontario Invaded By Social Credit

OTTAWA, Sept. 25.—Social Credit has invaded the Ontario election campaign. Alex. Desnoes, a young French-Canadian, will contest East Ottawa as a representative of Douglas Social Credit. His opponents are Hon. Paul Dedas, Liberal, and N. J. Lacombe, Conservative.

Confession of Kozak who had slight knowledge of the English language and certainly could not have introduced the concise style to the document.

EDEN'S TRADE SPEECH ANGRYS FACTORY MEN

National Manufacturers' Union Wires Protest To Government

LONDON, Sept. 25.—Harrold at Foreign Secretary Eden's remarks before the House of Commons yesterday at Eden's speech concerning preferences in the colonies, the National Union of Manufacturers today sent a memorandum of protest to the house of trade.

Sir Charles Hipwood, director of the union, signed the memorandum which expressed fear the government was prepared to discuss with other powers the abatement under certain conditions of preferences in the colonial empire.

Declaring that the offer was unlikely to appear "a country whose avowed object it is to regain her lost colonies," the memorandum warned such a step would reduce intra-empire trade.

In his speech Eden said the British government are ready "to enter into negotiations with countries which seek a lowering of these tariffs by the British government, particularly in mandated and autonomous governed colonial territories, providing it is proven that these preferential duties constitute excessive restrictions to international exchange."

The manufacturers also expressed doubt at Eden's suggestion for an agreement on a most-favored-nation basis between Great Britain and the United States for the reduction of the preference given to dominion products over those of the United States.

"The Dominions would be unable and unwilling to continue the preference they now give our goods," said the memorandum, "and the Americans with their high tariff cannot be expected to take the British manufactured goods that would thus be shut out of Dominion markets."

The memorandum further criticized the recently concluded trade

Flapper Fanny

"So that cat wanted to know when my date left! What'd you tell her?"

"Said it was while she was taking her exercises in front of the window with the shades up."

Medicine Hat Youth Winner Of Scholarship

MONTREAL, Sept. 25.—Under the terms of the circular of February 1, 1937, issued from the office of D. C. Coleman, vice-president, Canadian Pacific Railway, John Calder, son of Robert Calder, carpenter, mechanical department of the railway at Medicine Hat, has been awarded a scholarship at McGill University for the next four years.

It is announced by E. J. Curtis, staff registrar of the company, here today.

Mr. Calder was one of 38 contestants, qualified by the offer in the vice-president's circular, who took the senior matriculation examinations between Cayman and Japan and Australia and Japan. Lancashire cotton men have expressed indignation at both agreements which are said to have dealt a blow to Lancashire's strained export trade.

animation in which he was given the highest average marks. He is a graduate of Alexandria high school, Medicine Hat and his average marks for the 9th, 10th and 11th grades in that school were 90 per cent, giving him fourth highest standing for the whole province of Alberta.

Stretcher Trip For Hurt Youth Within A Week

INTERVIEW, Sept. 25. — Harry Campbell, 20, who received a broken leg in a fall from a horse near his home at Worsley, north-west of here, will likely be brought out from here on a stretcher in a week or so, it was indicated by Dr. O. J. Morton of Fairview, just before he left for Worsley to place the boy in a better cast.

At present, aiding the doctor is Morton of Worsley and Nurse Joseph Chapman of Valleyview, including Campbell.

Oil Kills Worms

MOSSBANK, SASK., Sept. 25.—Housewives went into action when a horde of army worms appeared in this southern Saskatchewan town. They used gasoline, kerosene and hot soap suds to kill the crawlers. Cylinder oil spread in narrow trenches appeared most effective.

Al Capone, Alvin Karpis, Montana-born Lithuanian, George (Machine Gun) Kelly, Harvey Wiley, John Paul, Harmon Waley, and a score of other arch-criminals in Alcatraz.

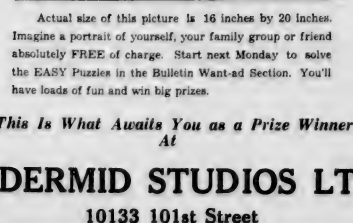

Unarmed, the gray-haired official walked among the men while guards with rifles peered through windows. Suddenly a prisoner arose and lashed at the warden. The of-

The vision I have, therefore, of the future is of a large number of moderately sized industrial centres, closely linked with civilization by radio and the air. Such centres could have all the appurtenances of civilization, in the shape of fre-

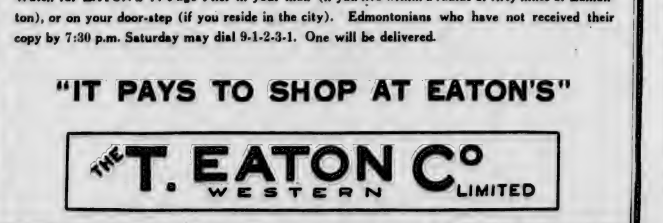

ner, ruin them, they should be placed, face downwards, on separate thicknesses of newspaper until they have dried; later being sorted into the various kinds. The finest possible specimen of each kind should then be selected for a place in the collection, with the remaining

OUR BOARDING HOUSE

MAJOR HOOPLE

"The most thought-provoking column appearing in any paper in Canada today appears daily in The Edmonton Bulletin. The world in review; pithy comment on

Passing

events; local, national and international topics looked at from an interesting angle. Look for it on page 4 every day. "The Passing

Show"

ALBERTA'S GREATEST SATURDAY COMIC PAGES

EDMONTON, ALBERTA, SEPT. 25, 1937.

THIS WORLD'S WEIRDS ANTLERS

ANTLERS ARE THE FIGHTING CLOTHES OF THE DEER FAMILY! THEY SHOULD NOT BE CALLED HORNS, SINCE THERE IS NO HORN IN THEM... THEY ARE COMPOSED OF PURE BONE.

EXCEPT IN THE CASE OF REINDEER, ONLY THE MALES WEAR THEM, AND THEY ARE USED AS THE CHIEF WEAPONS IN BATTLING FOR THEIR MATES.

AFTER THE MATING SEASON, ANTLERS DROP OFF, AND ARE PICKED UP BY SOUVENIR HUNTERS, OR EATEN BY EVER-HUNGRY PORCUPINES.

SHORTLY AFTER THE OLD SET IS SHED, NEW ONES BEGIN TO GROW! THEY ARE SOFT, SENSITIVE, AND COVERED WITH A PLUSH-LIKE SKIN, KNOWN AS "VELVET."

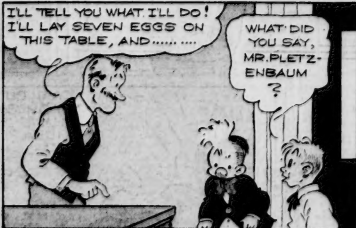

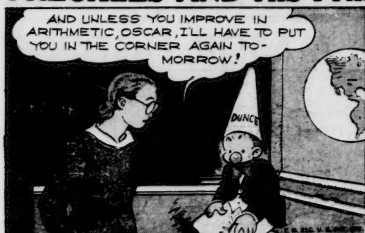

IN A FEW MONTHS TIME, BLOOD CEASES TO CIRCULATE THROUGH THE ANTLERS, AND GROWTH STOPS! THE BONE HARDENS, AND THE COVERING OF SKIN BEGINS TO PEEL OFF.

THE MOOSE GROWS THE MOST REMARKABLE OF ALL ANTLERS, WITH A RECORD SPREAD OF ABOUT EIGHTY INCHES.

THEN THE ANIMAL BEGINS THE TASK OF POLISHING HIS WEAPONS, BY SCRAPING OFF THE PIECES OF DEAD SKIN AGAINST THE BRANCHES OF TREES! SOON THEY ARE SMOOTH AND SHINY, AND HE IS READY FOR THE MATING DUELS THAT ARE TO COME.

FRECKLES AND HIS FRIENDS

By Blosser

"Out

on the open range with the real "drawn from the woods" buckaroos. In the machine shop among the boys with the overalls and lunch pails. Just a cross section of life taken from

Our

daily lives. A human interest picture of the family at home. It might be your house or mine. You'll get the subtle humor in every cartoon of The Bulletin's daily feature, "Out Our

Way"
